The figure consists of three parts. The top part is a 3D diagram showing a volume defined by a curved surface and a planar base. The base is a rectangle with vertices labeled B, K2, J2, I2, H, I1, J1, K1, and A. The vertical axis is labeled 'INK QUANTITY (%)' and has a tick mark at 30. The base is divided into regions labeled K0 through K5, J0 through J5, and I0 through I5. The 3D diagram is connected to two 2D graphs. The left graph shows the ink quantity distribution along the x-axis, with a peak at 60%. The right graph shows the ink quantity distribution along the y-axis, with a peak at 90%.
